

## Quality Policy

Applied Power Engineering Ltd is a trusted provider of solutions for the power generation and renewable energy sectors. We are committed to meeting customer expectations by delivering high-quality products and services.

Our offerings include bespoke design and development, assembly, supply through to commission of mains and generator control systems, mains protection, complex PLC control systems, gas, and diesel generators. Fully managed HV or LV multi-generator and power plant installations, complimented with maintenance of power generation and switchgear equipment.

By partnering with leading global manufacturers, APE ensures the delivery of cutting-edge products, backed by comprehensive national engineering and sales support throughout the UK.

### Our Commitments:

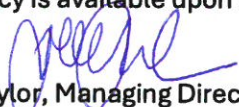

- **Continuous Improvement:**  
We will continually improve our Quality Management System in line with ISO 9001:2015. Regular reviews of our Quality Policy and Objectives ensure ongoing relevance and effectiveness.
- **Regulatory Compliance:**  
We ensure that all statutory, regulatory, and customer requirements are identified, understood, and consistently met.
- **Customer Satisfaction:**  
APE is dedicated to enhancing customer satisfaction by providing solutions that meet or exceed expectations.
- **Risk Management and Opportunity Identification:**  
We actively manage risks and seek opportunities to improve the quality and conformity of our products and services.
- **Employee Competence and Training:**  
We commit to providing the necessary training and resources to ensure employees have the skills and knowledge to meet our quality objectives.
- **Performance Monitoring:**  
We regularly monitor performance, conduct internal audits, and identify opportunities for continual improvement.
- **Climate Change Consideration:**  
We are committed to considering the environmental impact of our operations and supporting climate change mitigation by incorporating sustainable practices and solutions in our products and services.

### Top Management Responsibility

Top management ensures this policy is communicated, understood, and implemented at all levels. It is reviewed regularly to maintain alignment with our company's strategic direction.

The policy is available upon request and on our website at [www.apeltd.com](http://www.apeltd.com).
